

Simpler smarter voice

- Simple
- Reliable
- Resilient
- Cost Effective

Red Box Recorders

- UK Based organisation with over 20 years experience in voice recording
- OEM Product for RACAL, THALES & NICE Systems (Wordnet™)
- Global Presence

Recording Solutions

- Record all Telephony & Radio systems
 - Traditional (TDM), VoIP, Dealerboards, Radio, TETRA, etc.
- Full integration – detailed search and replay
- Record:
 - All calls
 - Specific extensions / devices
 - Record on demand
 - Exclude certain calls / devices
- Simple migration
 - Move from TDM to VoIP – same server, simply update the interface license
- Future proof and green
 - Record any technology in a single server
- Totally browser based
 - Easy to roll out, support & use

The screenshot displays the Red Box Recorders web interface. At the top, there is a navigation bar with a play button, a search icon, and the text 'Red Box RECORDERS'. Below this is a search section with the following fields:

- Search Range: Tues, 14 July 2009, 00:00 to Tues, 14 July 2009, 23:59
- Channel Name: Tom
- Extension: 5201
- Buttons: Add Search Criteria, Start

Below the search section is a table with the following columns: Call Start Time, Call End Time, Call Duration, Extension, Other Party, Call Direction, Trunk Name, and Group. The table contains 16 rows of call data.

Call Start Time	Call End Time	Call Duration	Extension	Other Party	Call Direction	Trunk Name	Group

Voice / Call Recording

Voice / Call Recording

- Foundation for any Contact Centre
 - Any organisation conducting business over the phone / radio

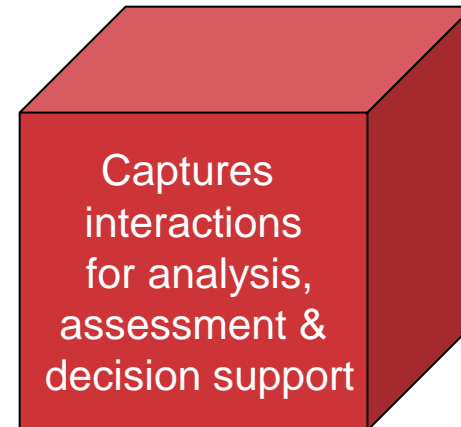

Bedrock of managing communications
(The foundations)

Measurement enables Management

Delivering Essential Functionality

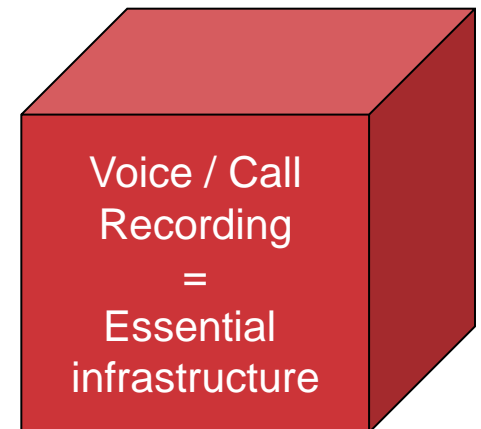

- Legal and regulatory compliance
 - FSA, PCi, Legal / Internal requirement
- Dispute verification and clarity
- Evidential disclosure
- Decision support & liability protection
- Improved customer service / satisfaction
- Assessment of quality
- Business improvement

Operational Performance

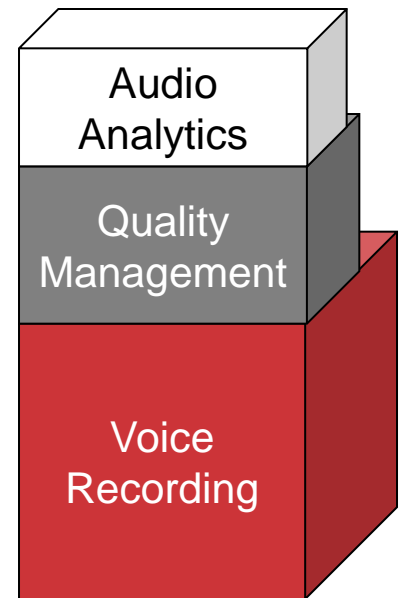

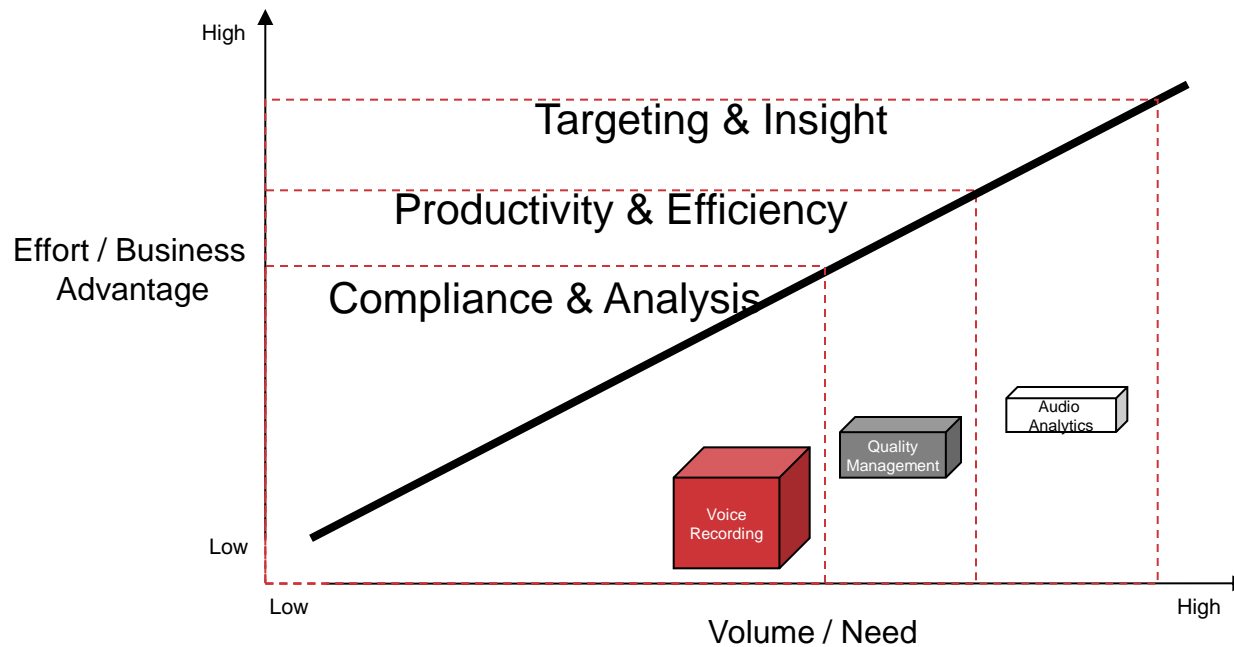

- Legal or internal dependency on accuracy of verbal communication
- Criticality of caller information (bomb threat, emergency calls, one time communications) Threatening or abusive callers
- Resolving disputes
- Improving customer satisfaction
- Cost reduction and agent retention
- Protect against fraud
- Developing organisational effectiveness
- Delivering accurate reports or evidence
- Proving operational performance and effectiveness

Organisational Development

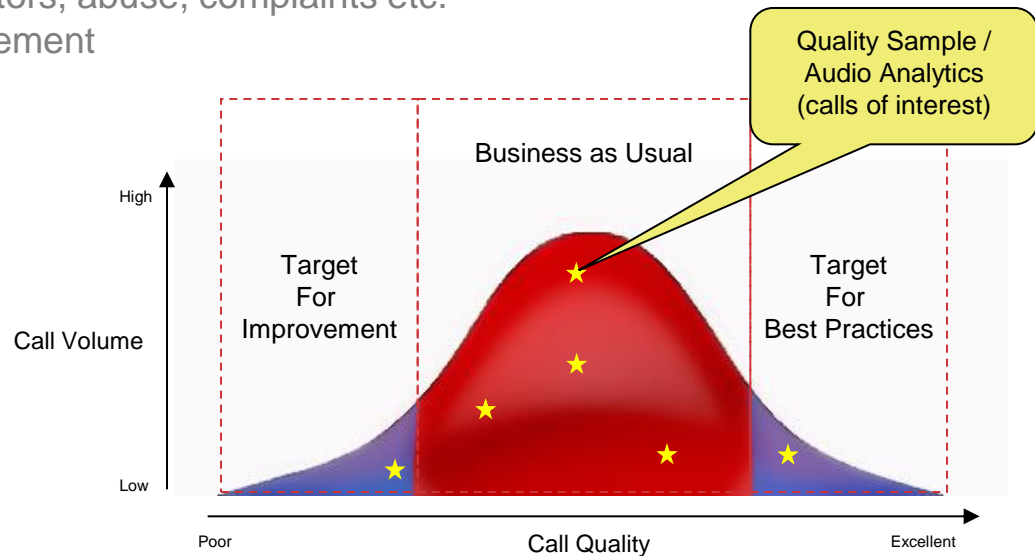

- Effort / Inconvenience / Additional Insight = Additional Investment

Solution Rollout

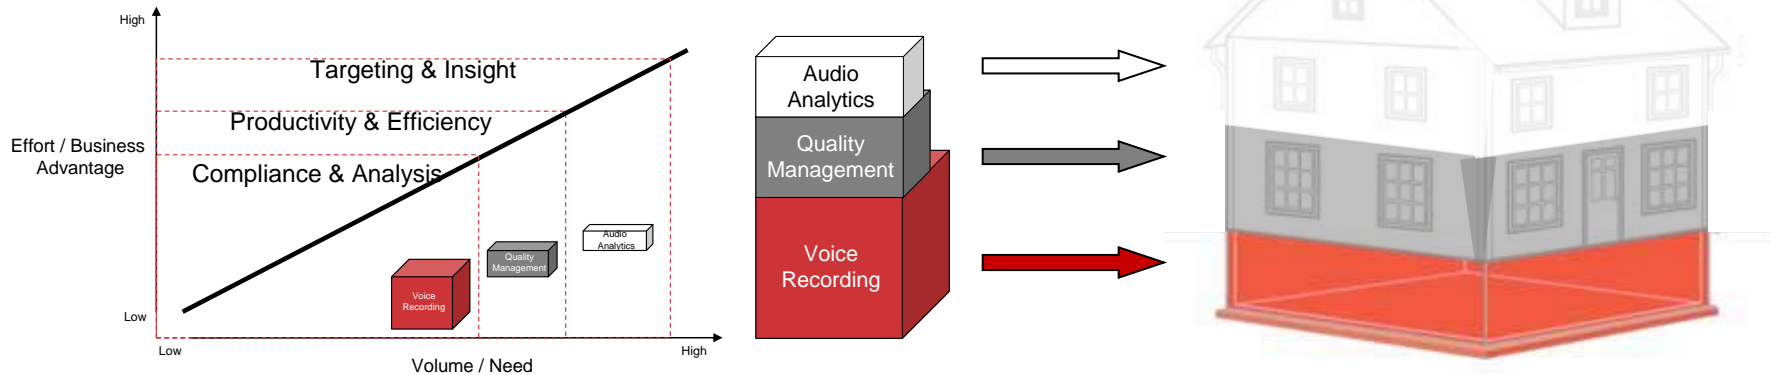

- Quality Management – Process improvement & effectiveness
 - Integrated call & Screen replay
 - Forms for assessment & reporting
 - Automated results & reporting
 - Targeted coaching, training & discipline
- Audio Analytics
 - Phonetic based call lists
 - Targeted results based on calls of interest
 - Target, fraud, churn, competitors, abuse, complaints etc.
 - Integrate with Quality Management

Total Solution

Record ➡ Manage ➡ Improve = Drive Compliance & Performance

 Quantify

The logo for Quantify features a stylized icon on the left, composed of two overlapping curved shapes: a larger red one on top and a smaller grey one on the bottom. To the right of this icon, the word "Quantify" is written in a bold, red, sans-serif font.

 Red Box RECORDERS

The logo for Red Box Recorders features a stylized icon on the left, consisting of three concentric, upward-curving lines in red. To the right of this icon, the words "Red Box" are written in a bold, red, sans-serif font, and the word "RECORDERS" is written in a smaller, grey, sans-serif font.

Quantify Web Based User Interface

- Browser based search and replay interface
- Call details displayed
- Simple easy to use media player style controls
- Pitch corrected variable speed replay
- Loop replay
- Stereo replay
- Spoken time
- Export as WAV file
- Annotation of calls

Quantify Call Logging Application

- Collects all incoming/outgoing voice sessions from IP and legacy PBXs
- Records the data and produces analysis in the form of reports, alerts and monitoring
- Results of the analysis can assist companies in the reduction of:
 - Operational costs
 - Improved employee productivity
 - Early detection of fraud and network misuse
 - Better budget control
 - Improved VoIP QoS and optimised network resources

Full Report Help

Quantify Virtual Observer

Reducing costs and increasing productivity and revenue

Reduce Costs

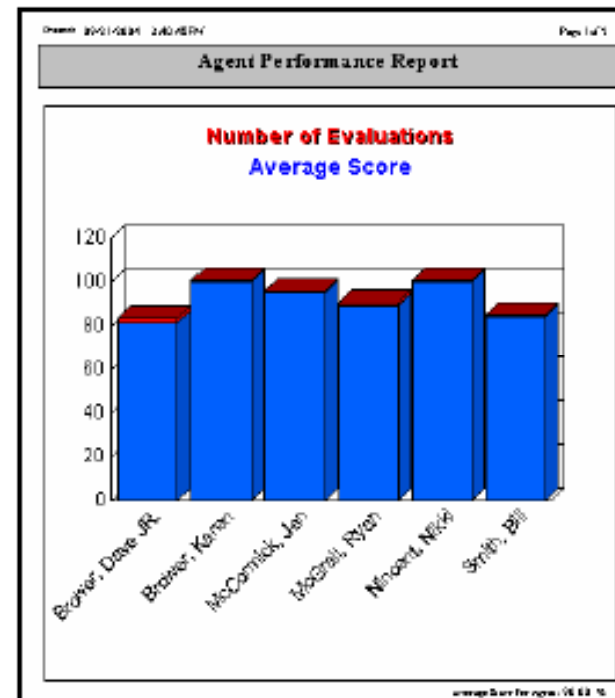

- Reduce Monitoring Time
- Reduce Evaluation Time
- Reduce “New Agent” Training Time
- Reduce Repetitive Coaching
- Reduce Talk Times
- Reduce Agent Turnover
- Detect Agent Inadequacies

Increase Productivity

- Improve Supervisor Performance
- Create Targeted Training Programs
- Create “Better Trained” Agents
- Improve Agent Consistency
- Improve Agent Performance and Morale

Increase Revenue

- Retain Experienced Agents
- Provide Better Customer Service
- Improve Customer Satisfaction
- Improve “Time to Market” for Products

Quantify Audiofinder

- AudioFinder phonetic indexing technology
- searches on the spoken word content contained within the media
- Automates the review process
- Eliminates the errors caused by fatigue, boredom and other distractions that typically result from human listening.
- Returns highly accurate results regardless of audio quality, speaker accents, dialects, slang, and non-standard grammatical patterns

Quantify AudioFinder - Powered by NEXIDIA v2.1.1.62637
