

Enterprise Room Scheduling Platform

A smart workplace starts with a smart scheduling system

The modern workplace is fast-paced, flexible, and dispersed. You need a scheduling platform that not only keeps up with you, but makes everyone more efficient, connected, and collaborative across all spaces while meeting your booking requirements.

SCALABLE | FLEXIBLE | SECURE | MANAGED

Any type of work space ...

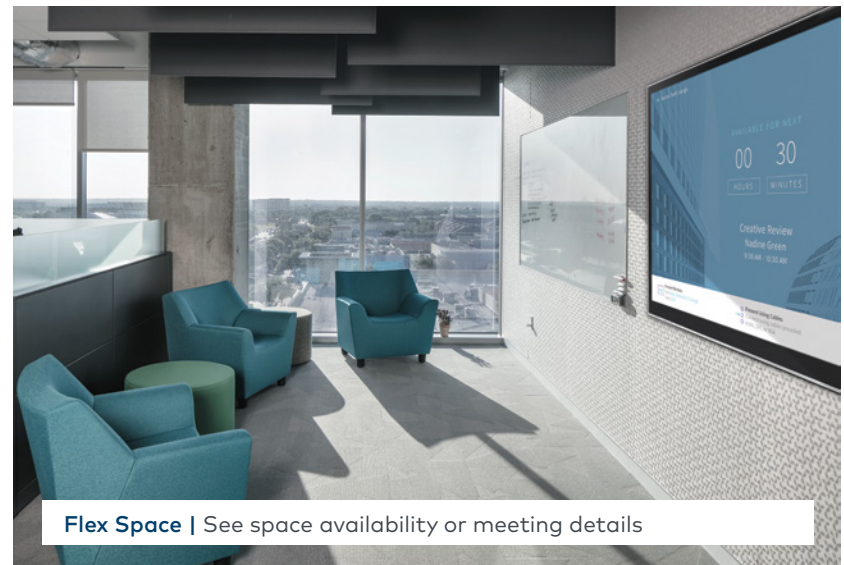

... one unified Crestron Scheduling platform

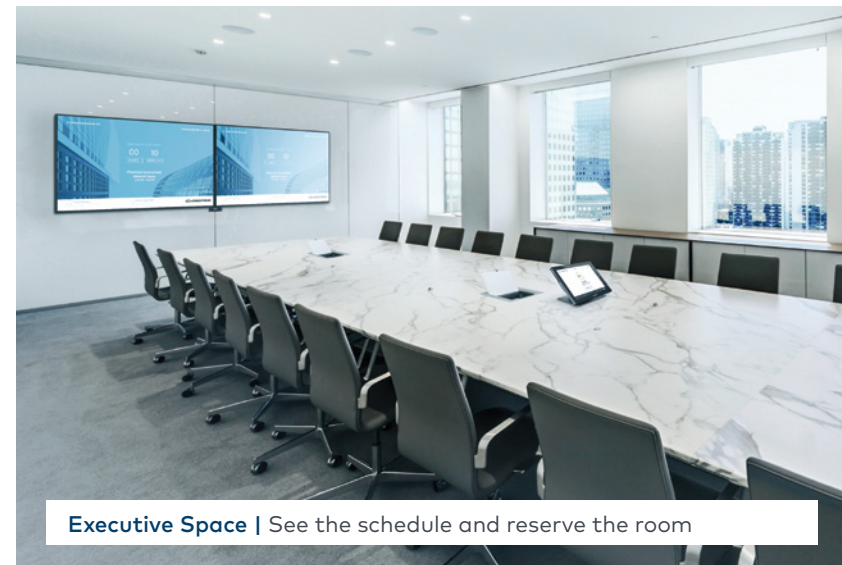

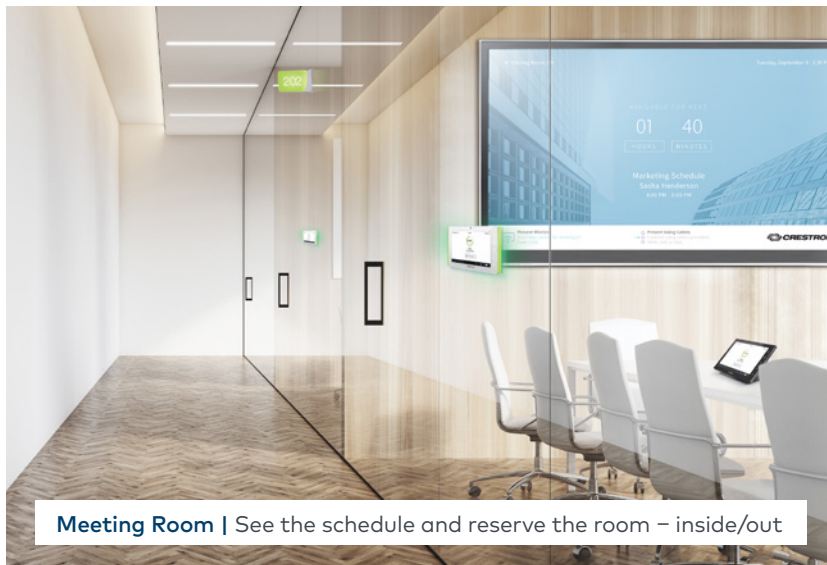

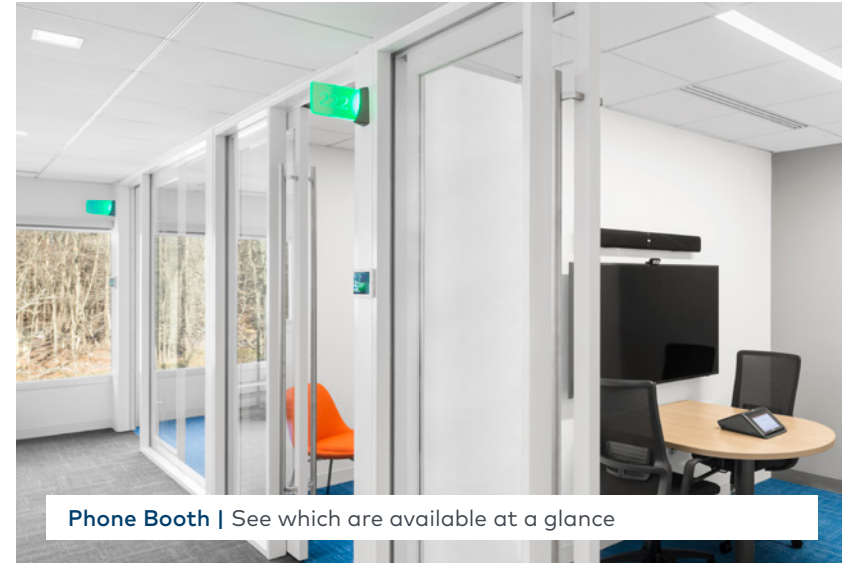

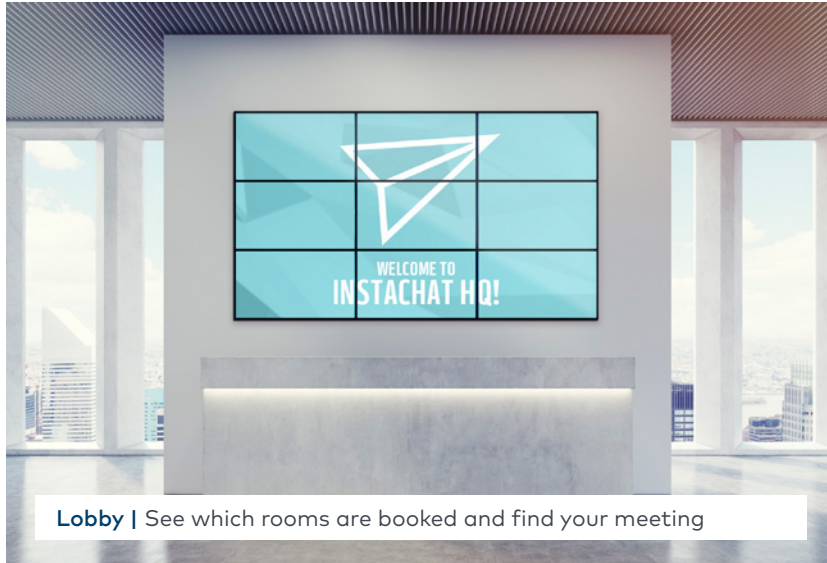

SCALABLE | FLEXIBLE | SECURE | MANAGED

New technology for the modern workplace

The highly scalable Crestron platform meets the needs of every possible space and room type across your building or campus.

SCALABLE | FLEXIBLE | SECURE | MANAGED

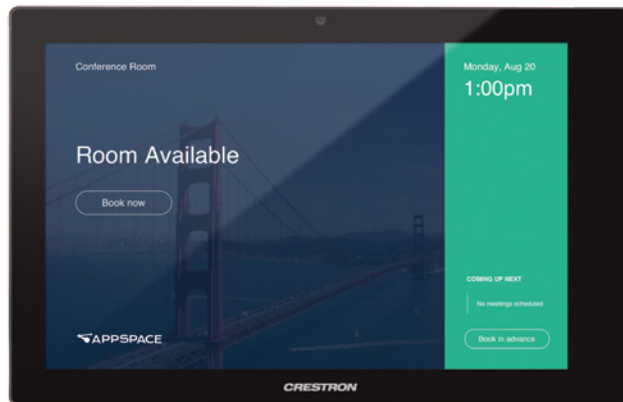

Open platform

Crestron scheduling touch screens provide the flexibility you need by directly connecting to the most popular enterprise calendaring programs, such as Microsoft® Exchange, Office 365®, and G Suite®.

Crestron hardware also allows you to choose the scheduling provider that best meets your needs, while delivering a native experience for each.

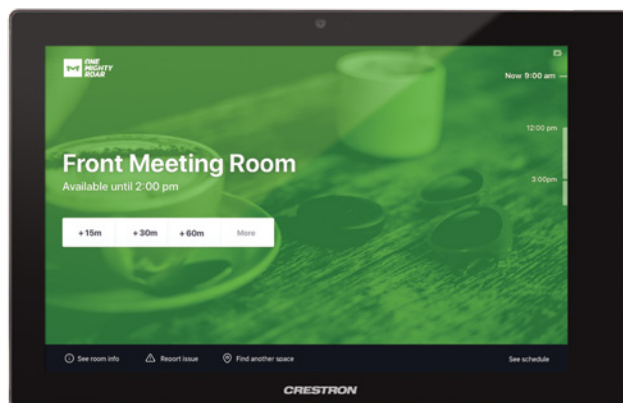

Run any scheduling provider natively on a TSW touchscreen

In the hall

Room Availability Hallway Signs

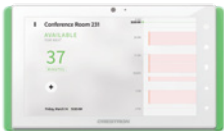

Wall Mount
SSW

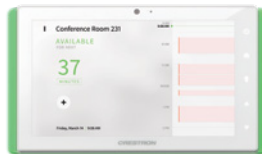

Ceiling Mount
SSC

With the SSW and SSC, all it takes is a quick glance down the hallway to find a free meeting room. Wall or ceiling mounted outside the room, the LED light illuminates bright green to indicate an available room, and red to indicate it's occupied.

Room Scheduling Touch Screens

7" Touch Screen
with Light Bar*
TSW-760-LB

10" Touch Screen
with Light Bar*
TSW-1060-LB

Mounted on the wall just outside meeting rooms, the TSW-760 and TSW-1060 connect directly to popular calendaring platforms including Microsoft Exchange, Office 365, and G Suite, making it convenient to book available rooms in advance or on the spot for ad hoc meetings.

FLEXIBLE

On the go

Crestron PinPoint™

Available for both iOS® and Android™ devices, the Crestron PinPoint™ app puts intelligent room search and booking in the palm of your hand. Easily search for the best space to meet based on proximity, seating capacity, and technology capabilities. One-touch wireless presentation ensures your meeting starts promptly without having to download apps, or enter IP addresses or access codes.

Automate your space

Nothing brings productivity to a screeching halt like not having a place to meet. Too often booked rooms sit vacant because of "no shows" or a meeting ended early. Crestron room scheduling intelligently returns vacant rooms to inventory to maximize workflow and space utilization. Detailed statistics and reports enable you to track your progress.

Occupancy sensors

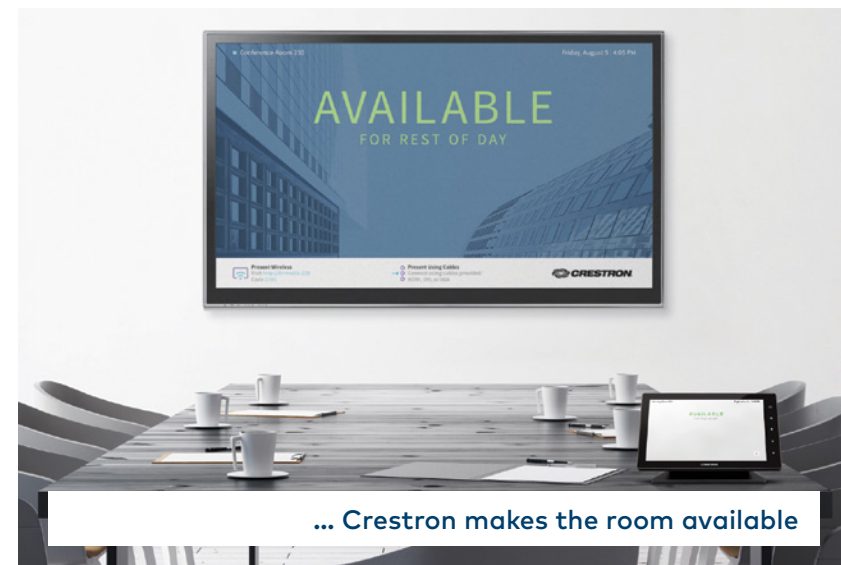

Use occupancy sensors to turn the room on and off, and to report room usage data back to Crestron Fusion.

Dual-Technology Occupancy
Sensor with Cresnet®
GLS-ODT-C-CN

Passive Infrared Occupancy
Sensor with Cresnet
